

Press release

20th April 2010

Procurement of Hackney Homes Decent Homes constructors

Hackney Homes has been undertaking a significant procurement exercise to establish constructors to deliver the Decent Homes and maintenance works on thousands of homes in Hackney.

On 14 April 2010, a decision was made to award contracts to three bidders who came top following an evaluation of the final bids. Residents were involved throughout this process and judged the different bids proposed.

The bidders that have been recommended for contract award are:

- Mulalley & Co Ltd
- Mansell Construction Services Ltd
- Lakehouse Contracts Ltd

This is subject to Leaseholder consultation Notices of Proposal and the Alcatel standstill period as well as negotiating consequences arising from transfer of contractor staff under TUPE.

A transition plan is being developed to ensure that works have continuity and to establish cost effective and efficient supply chains. It is anticipated that the new contracts will go live in July/August 2010.
